

Staff Sergeant Jordan Brown-Stobbe

Electrical & Environmental Systems Specialist

Staff Sergeant Jordan Brown-Stobbe is an electrical & environmental systems specialist for the F-16 Viper Demonstration Team. As an electrical & environmental systems specialist, he is responsible for identifying, isolating and repairing malfunctions in the environmental control, power generation and aircraft anti-skid systems.

He represents Air Combat Command, the United States Air Force and the Department of Defense at more than 20 air shows annually.

His mission is to ensure the demonstration team has a quality aircraft available to perform a safe demonstration so that millions of spectators can see the capabilities of the F-16 Viper.

Staff Sergeant Brown-Stobbe enlisted into the Air Force in April, 2018. He is from Morgantown, West Virginia, and enjoys competing in triathlons.
